a. The Fernk-bel- & Apparatebau-Fabrik at Nalepastrasse 172 in Berlin-Oberschöneweide is producing German bombsight equipment, remote control instruments for torpedo boats, and large torpedoes. Source, a former German Air Ministry engineer familiar with remote control equipment, states that the construction of the torpedoes is expensive; each weapon requires a radio receiver; the remote control system is that used by the German Army in 1944-45. Another engineer states that the firm is also making, or planning to make, remote control instruments for guided missiles.

b.

reports that the SMAD Department of Industry recently ordered thirty sets of the following articles:

Munition carpet (? "Munitionsteppich")
Protective skirt for rear of tanks
Protective cover for 122 mm guns
Muzzle protective cap for 122 mm guns
Protective cover for machine guns
Motor gaskets
Gasket for entrance hatches
Radiator guards
Seat cover for drivers
Cover for back of drivers' seats
Cover for machine commanders' seats, supercharger, and gunner
Shell carriers
Cartridge carriers
Carrier for 122 mm cartridges
Muzzle protective cap for machine guns
Muzzle protective cap for 85 mm guns
Protective cap for 85 mm guns
Pillow for mechanic-drivers' seats
Seat for machine commanders
Side part of seat for mechanic-drivers

2. Reichenbach (K23)

Fichtel & Sachs, a socialized firm and subsidiary of the Schweinfurt Company of the same name, is producing a small motor for use in guided missiles. The Russians seized eleven smaller plants in Reichenbach at the end of July; these are said to be working on some new device for Fichtel & Sachs. Strict security is observed and the owners of the confiscated plants have been eliminated from their businesses.

3. Zeitz (K08)

Toluol is being produced by the Leuna-Werke and a large gasoline refinery in Zeitz. A very small part of the output is delivered to the German dye industry and only to German firms working on Soviet orders. The bulk of the toluol is shipped to the USSR. Small quantities are being bought from German dye factories and larger amounts from Soviet officials by Polish purchasing groups.
